# MPS® 3 Medical Air Hose Kit

1 UNIT

#### **DESCRIPTION:**

MPS 3 Medical Air Hose Kit. Use this kit to connect the MPS 3 console and the medical air wall outlet.

### INDICATION FOR USE

The MPS 3 medical air hose kit is indicated to be used as the interface between the MPS 3 console and the hospitals' installed medical air system.

### CONTRAINDICATION

This product is designed and warranted for use with the Quest MPS 3 cardioplegia delivery system only. Use with other systems is contraindicated. This product is not designed, sold, or intended for use except as indicated.

## **WARNINGS and CAUTIONS**

- 1. Read instructions carefully. The attending clinician is solely responsible for the setup and use of this device.
- Federal (U.S.A.) law restricts this device to sale by or on the order of a physician.
- 3. Do not kink tubing
- 4. Before connecting the Medical Air Supply to the MPS 3 System, please ensure the maximum pressure does not exceed 55psi. While the MPS 3 System will regulate the pressure down to the necessary operating levels, connecting high pressure may damage internal components.
- Avoid OPERATOR INJURY. Only qualified technicians should attempt to connect a Medical Air Supply to the MPS 3 System. Make sure that all fingers are free from pinch/crush hazards while connecting the Medical Air Supply and tubing connections.
- Please ensure that the Medical Air Supply is free from oil, water, and residue to prevent unintended damage to the MPS 3 System.

#### **INSTRUCTIONS FOR USE**

- Plug the brass and black quick connect into the back of the MPS 3 Console by pushing it into the mating quick connect (Figure 1 and 2).
- 2. Plug the yellow end into the medical air wall outlet (Figure 2).
- 3. Follow the instructions in the MPS 3 user's manual to operate and supply air to the console.
- To disconnect from the console, pull backwards on the black sleeve to disengage the quick connect (Figure 3).
